SPRING

## Nouns Interactive Book

DIRECTIONS FOR INTERACTIVE BOOKS

- Print and laminate all pages.
- Cut pages in half. Leave last page of book whole.
- Hole punch all pages on the outside of the black line (on the left side). I use two holes. Then, place the book pages on top of the last page.
- Cut out the interactive pieces on the first page.
- Place a piece of hook Velcro on each sentence square on the boxes each page, as well as on top of each square picture on the last page. Place a piece of loop Velcro on the back of each interactive piece. Store these pieces on the last page.
- Students will read the book, and move the interactive pieces to the sentence box for each page.

Additional interactive books and activity pages are included in the Preschool Language Kit: Spring packet available on TpT.
